# Transform the Journey

## Identify

- Identify students with conduct issues easily and efficiently
- Create customized forms with campus-specific policy infractions
- Route incident reports to the appropriate manager
- Mobile/touch design for on-the-go accessibility

## Manage Cases

- Visualize all incidents in your "Active Cases" list
- Access all relevant residence and parent contact info
- Label types of offenses with incident statuses
- View timeline of last updates, contact records, and team comments
- Securely upload and attach documents, pictures and files to a student's record

## Collaborate

- Share information with appropriate support services
- Manage access to private details related to student conduct issues
- Identify student's circle of relationships instantly

## Communicate

- Email students at official and personal addresses
- Store email templates with notifications, appeals, sanction letters, etc.
- Create a logged history of all incidents, interactions, sanctions, and communications

## Resolve & Report

- Access quick-look dashboards that display case resolution, time spent, and risk scores for managed students
- Measure outcomes on a case-by-case basis with personalized resolutions
- Create aggregate reports of incident issues
- Easy and intuitive Clery Reporting
